SUMMARY

I am a passionate Computer Science undergraduate with strong problem-solving skills and a focus on full stack development. Proficient in HTML, CSS, JavaScript, React.js, Node.js, MongoDB, PHP, Java, and Python, I continuously seek opportunities to learn and apply my knowledge. My internships strengthened my expertise in web development, data handling, and creative problem-solving, while also enhancing my teamwork skills. With an interest in data science, I aim to contribute to innovative projects and deliver impactful digital solutions.
